College**

My name is Ella Burden, I am a second year Agriculture student at the Common Leys Farm Campus. The past four years studying I have volunteered to be a Student Rep. This year I wanted to be more involved in making sure our voices are heard at the farm campus, so decided to become a Campus Lead. I'm passionate about our voices being heard and ideas put in to action.

My main priorities this year are:

To make sure students feel safe and are being treated equally.

To make students feel comfortable with raising concerns and asking questions.

To make sure students achieve and experience the most they can whilst at college.

I believe that no student should ever be left behind.

Please feel free to message me on Teams with suggestions and any questions.

Common Leys Campus Lead
