TUITION FEE POLICY 2020-2021

1. Key principles

Abingdon & Witney College is committed to a fair and transparent policy in respect of charges made to students. As far as possible, the college seeks to:

- Set fees that are in line with funding guidance and other relevant agency policy
- Set fees that are competitive in the different markets in which the college competes
- Ensure coherence in fee levels across different funding streams.

*Fully funded adult learners are those who are unemployed or on certain benefits, those who enrol on entry level or level 1 qualifications that lead to a level 2, and 19 – 23 year olds enrolling on a full level 2 or full level 3 if they don't already hold these qualifications, and the qualification is fundable through entitlements

**The term co-funding is used to demonstrate that the college receives some funding for such courses from the SFA and the remainder from the student.

3. Calculation of fees and comparison 2020/21 to 2019/20

 - Instalment plans are not available to overseas students, employers or students without a UK bank account
 - Instalments will be collected on the first working day of each month. Any payments that are unsuccessful on the prescribed date of collection will still be collected, following a notice period of seven days from the original scheduled date. Where the College is unable to collect payment the student may be asked to leave their programme of study but will remain liable for payment of any outstanding fees
 - Instalment plans outside the above terms must be approved by the Finance Director
 - All instalment plans must be completed within the academic year to which the course relates

Places on a course are not confirmed until payment has been received.

5. Refunds

5.1 Refunds for cancelled courses

The cancelled course refund policy applies to all students who have paid a tuition fee either directly (have funded their own courses) or indirectly to the College (via a sponsor, a bursary or the Student Loans Company for example).

Refunds will be made where it is necessary to close a class due to insufficient numbers. Should this action prove necessary, the College will aim to contact all enrolled students at least 3 working days before the course is due to start.

Refunds in respect of a cancelled course are automatically issued to self-funding students and to sponsors. In the case of student loans/bursaries, the College will inform the student loan company/bursary team that the student will not be attending a programme.

5.2 Refunds to students no longer attending courses

If a student is unable to begin their course, has paid a tuition fee for that course and wishes to claim a refund, they must write to the finance department to request a refund. Refunds are usually only made for illness and applications for a refund on this basis must be accompanied by a doctor's certificate. Refunds for other special circumstances are at the discretion of the Finance Director.

For self-funding and sponsor paid fees; if a student withdraws after starting the course and has paid a tuition fee, their fee is still due unless a successful application for a refund is approved by the Finance Director.

For fees paid by the Student Loan Company/bursary payments; the loan/bursary amount will still be due for the period of attendance on your course, i.e. if you attend your course from September until December and then withdraw, you will still be liable for tuition fees that period of attendance. For the purpose of this policy, attendance refers to both physical attendance on the course or in the case of remote learning, the submission of coursework/attendance to exams.

5.3 Refunds for materials/exam registrations

Refunds will not be made for any personalised kits or materials which are being retained by the learner or any registration fees which have been paid to another party by the college on behalf of the learner.

5.4 Compensation

Financial compensation may be considered in exceptional circumstances, for example, where the College has made such changes to a programme of study that attendance of learners is made impossible. Examples of this may include; 'loss of opportunity' e.g. failure to complete a placement, apply for a bursary or to seek paid employment where this arises from an act or omission by the College, expenses the student has had to pay or money they have lost as a result of any College/course failings or closure.

When considering whether financial compensation is appropriate, the College will take into account the following:

- Any reasonable steps which have or have not been taken by the student and/or the College to minimise financial loss
- Whether the student has unreasonably refused or rejected an option that was available
- Whether the delays in resolving a matter may have been partly caused by the student

In all cases, the College requires the student to provide evidence of actual financial loss.

5.5 Financial Implications of Refund and Compensation Policy

Refunds and compensation are managed out of College reserves. Our cash at bank balance never falls below £250k which the College feels is sufficient for that eventuality.

6. Procedure for exam resit fees

The college has a separate procedure for exam resit fees. The procedure is available on Office 365.

7. Review of fee policy and charges

The college will review the fees and policy annually but reserves the right to make changes to this policy at any time.
